Product datasheet

Datasheet for Remote Controller TX

Features:

1. 1,2,3 or possibly 4 ways ON-OFF Digital Intelligent Wireless Remote Control Switch.
2. Suitable for many types of lighting fixtures, energy-saving lamps, bathroom fans, etc.
3. It can be used in household, stairs, corridor, washroom, toilet, workshop, warehouse, garage, factory lighting, etc.
4. Fast and easy to install, not obstructed by walls, capable of connecting any loads.
5. Remote controller and switch can be used simultaneously for ease and flexibility.
6. Stable signal receiving, number of wires to connect depends on model of controller
7. 1 x 12V 23A battery (might be not included) is needed for the remote control switch.

Specification:

Input: AC200V-240V 50Hz/60Hz

Launch battery: 12V 23A (might be not included)

Load Power:

Resistive load: maximum output power of single set is within 1000W (such as common incandescent light bulb, the halogen light bulb);

Inductive load: maximum output power of single set is within 300W (like light with ballast: energy saving light, bracket lamp, absorb dome light)

Maximum number of LED and Energy Saving Lamps is 6pcs

Remote control distance: about 8-15meters indoor, over 20m outdoor.

Package size: 170x120x30mm

Package included:

1 x 4 Ways Switcher Splitter

1x Remote Control(Battery may not be included)
